## **National Patient Safety Conference to Focus on ‘Thriving in Change’**

*Nov. 2 ISMIE Risk Management Symposium gathers health leaders, national experts to examine emerging risks in patient safety and medical professional liability*

Chicago, IL – [ISMIE Mutual Insurance Company](http://www.ismie.com) announces its 3rd Annual Risk Management Symposium: Thriving in Change. This daylong conference, ISMIE’s premier learning event, will be held November 2 at the Hilton Chicago/Oak Brook Hills Resort and Conference Center in Oak Brook, Illinois, and is open to all interested health care professionals and administrators.

This year’s symposium will feature [keynotes and individual breakout sessions](#) focusing on new and emerging risks, such as telemedicine, genetic testing, precision medicine, polypharmacy, diagnostic accuracy, burnout and resilience, and more. [Speakers](#) this year will include:

- Lisa Bielamowicz, MD
- Wendy Chung, MD, PhD
- Gurpreet Dhaliwal, MD
- Holly M. Holmes, MD, MS
- Nathaniel Lacktman, Esq.
- Peter H. O'Donnell, MD
- J. Bryan Sexton, PhD

“The symposium is one of the highlights of ISMIE’s risk management program and a truly unique benefit for our policyholders,” said ISMIE Chairman Paul H. DeHaan, MD. “We’ve assembled a first-class lineup of speakers and educators. They’ll provide attendees with tools, insights, and inspiration to navigate and excel in a changing health care environment.”

For more than 40 years, ISMIE has leveraged the experience of its physician leadership to protect its policyholders and help them care for patients. For much of its history, ISMIE has committed to offering practical, forward-thinking risk management education as part of its Managing Risk Partnership Program.

ISMIE policyholders can attend the [symposium](#) for free. Substantial discounts are available for [Illinois State Medical Society](#) members and employed staff of ISMIE policyholders, and reduced rates are also offered for members of the [American Society of Health Care Risk Management](#) (ASHRM).
